## OBJECTIVE

A detail-oriented Data Science student with practical experience in frontend technologies including HTML, CSS, and JavaScript. With beginner-level skills in Python and Java, I am enthusiastic about applying a diverse skill set to solve complex problems. I am keenly interested in opportunities within Web Development, Data Science, Data Analysis, and Software Development to learn, grow, and contribute effectively.

---

Bachelor of Technology - Computer Science (DS)	
• <b>Pragathi Junior College, Achampet</b>	2020-2022 84%
Intermediate in MPC	
• <b>Ich Dien Convent High School, Achampet</b>	2020 100%
Secondary School Certificate	

---

## CERTIFICATES

- Infosys Springboard: Course Completion Certificate from Infosys on the "Data Science".
  - Infosys Springboard: Course Completion Certificate from Infosys on the "Database Management System - Science Graduates".
  - GeeksforGeeks: Course Completion Certificate from GeeksforGeeks on the "JavaScript".
  - Pantech: Certificate of Participation from Pantech for attending 28 days of master classes on Java Programming.
- 

## PROJECTS

### Project - 1

Developing a Project using HTML , CSS, JavaScript and Python that helps manage academic content in a better and more organized way. It allows admins, faculty, and students to use the system based on their roles. Faculty can upload study materials, and students can easily access them by branch and year. This feature saves time, reducing content search time for students by an estimated 40%.

### Project - 2

Cloned the Xiaomi website and Apple store website by using the HTML, CSS, JavaScript, which enhanced my frontend technical skills.
